

Special Crankshaft Rotation Tool for VAG 5-Cylinder Engines

TOOL

Tool for rotation the crankshaft,
to be used as VAG OEM T10225

ATTENTION

Read the operating instructions and all safety instructions contained therein carefully before using the product. Use the product correctly, with care and only according to the intended purpose. Non-compliance of the safety instructions may lead to damage, personal injury and to termination of the warranty. Keep these instructions in a safe and dry location for future reference. Enclose the operating instructions when handing over the product to third parties.

INTENDED USE

The special-socket is used to turn the crankshaft and is a very useful tool for jobs on e.g. cylinder head, crankshaft and engine timing.

SAFETY INFORMATIONS

- Keep children and unauthorised persons away from the work area.
- Do not let any children play with the tool or its packaging.
- Make sure that the work area is sufficiently illuminated.
- Keep the work area clean, organised, dry and free from other materials.
- Do allow untrained persons work with this tool set.
- Beware when working on running engines, loose clothing, tools and other things might be caught up by rotation parts, which can lead to severe personal injuries.
- Remove the ignition key before working on the engine. This way you avoid an unintentional starting of the engine.
- This manual only serves as a short info. In no case it replaces additional references. For further information about repairing, adjustment and checking please always consult the appropriate service literature.
- Store the tool in a dry and safe location out of the reach of children.

USE

1. Attach the special socket with the screw (20 Nm) on the crankshaft. Note: The special socket can only be fixing in one position at the crankshaft.
2. Rotate the crankshaft in the direction of engine rotation until the marking of the special socket is aligned with the mark on the sealing flange.
3. The cylinder one is now available to TDC.

ENVIRONMENTAL PROTECTION

Dispose of this product at the end of its working life environmentally. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. Contact your local solid waste authority for recycling information.
