

# High Pressure Fuel Pump Sprocket Puller for KIA & Hyundai 2.5 CRDi

## TOOL

High Pressure Fuel Pump Sprocket Puller,  
to be used as OEM 09331-4A000

## INTENDED USE

This special tool is used to remove the sprocket from the diesel high pressure pump and is suitable for Kia Sorento BL (2003-2009) 2.5 CRDi VGT, 2.5 CRDi (D4CB) and Hyundai iLoad (2007-) 2.5 CRDi (D4CB).

## SAFETY ADVICE

- DO NOT use the set if any parts are missing or damaged.
- Never lay tools on the vehicle's battery. This may short the terminals together.
- Be careful when working on running engines. Loose clothes, tools and other things can be caught up in revolving parts which may lead to serious injuries.
- Keep children and other unauthorised persons away from the working area.
- Be careful when working on hot engines – risk of burn!
- Remove the ignition key before repair so that the engine will not start unintentionally.
- This manual is just brief information and will not replace a garage handbook.
- Always consult specific service literature for information about torques, assemblies and disassemblies etc.
- After any successful maintenance and before starting the engine, you should rotate the engine for two turns manually to check the new control time.
- Turn the engine in the normal direction (clockwise unless stated otherwise).

## OPERATION
